

C API

Python API

Fortran API ...

RSF File

```
graph TD; C[C API] --> RSF[RSF File]; Python[Python API] --> RSF; Fortran[Fortran API] --> RSF;
```

The diagram illustrates a central 'RSF File' box at the bottom, which is the target of three arrows pointing downwards from three separate API boxes above it. The 'C API' box is on the left with a red border, the 'Python API' box is in the middle with a blue border, and the 'Fortran API' box is on the right with a green border. An ellipsis '...' follows the 'Fortran API' box, indicating that other APIs can also interface with the RSF File.
